QUEENSLAND JOURNAL OF AGRICULTURAL AND ANIMAL SCIENCES

VOLUME 34, 1977

CONTENTS

No. 1 JUNE

	PAGE
The relationship between plant density, yield and quality in Virginia Bunch peanuts in south-east Queensland. S. Langford	1
Control of brigalow (*Acacia harpophylla*) in cattle country by two aerial spraying applications 10 months apart. R. W. Johnson and P. V. Back	9
A survey of nematophagous fungi in Queensland. Janet S. McCulloch	25
The effect of plant density on leaf area index and yields of *Pisum sativum* L. By N. S. Kruger	35
Studies on the gilgaied clay soils (Ug 5·2) of the Highworth land system in east-central Queensland. 1. Chemical characteristics. A. A. Webb, B. J. Crack and Jill Y. Gill	53
Studies on the gilgaied clay soils (Ug 5·2) of the Highworth land system in central Queensland. 2. Glasshouse assessment of plant nutrient status. A. A. Webb	67
Control of *Aonidiella aurantii* (Maskell) and *Chrysomphalus ficus* Ashmead on citrus in south-eastern Queensland. D. Smith	75
Nitrogen mineralization in three soil types used for tobacco production in the Moreton district. K. H. Ferguson and H. T. Green	87
Effect of dipping on the growth rate of grazing cattle. B. Gulbransen, L. Laws and J. A. Connell	99
Nutritive value for sheep of untreated hoop pine sawdust supplemented with urea or biuret. B. Gulbransen	103
Mammals and birds of Stanthorpe Shire, south-east Queensland. T. H. Kirkpatrick and A. K. Searle	109
Mammals and birds of Millmerran Shire, south-east Queensland. T. H. Kirkpatrick and P. J. Amos	123
Hexaflurate: a new herbicide for selective control of harrisia cactus. G. J. Harvey	135

PAGE

No. 2 DECEMBER

Control of jassids (*F. cicadellidae*) on potatoes in southern Queensland. P. D. Rossiter .. 141

Insecticides to control sorghum midge *Contarinia sorghicola* (Coq.). P. D. Rossiter .. 147

Control of white wax scale (*Gascardia destructor* (Newstead)) on citrus in south-eastern Queensland. D. Smith and D. A. Ironside 151

Insects associated with *Eremophila gilesii* F. Muell. in southern Queensland. P. G. Allsopp 157

Seasonal history of lucerne jassids in south-east Queensland. G. K. Waite 163

Vertical distributions of tobacco looper (*Plusia argentifera* Guenee) (Lepidoptera: Noctuidae) eggs and larvae on three tobacco varieties in north Queensland. R. H. Broadley 169

Control of the banana rust thrips (*Chaetanaphothrips signipennis* (Bagn.)) in north Queensland. B. A. Franzmann 175

Relationship between burning and spraying in the control of brigalow (*Acacia harpophylla*) regrowth. 1. Burning as a pre-spraying treatment. R. W. Johnson and P. V. Back 179

Relationship between burning and spraying in the control of brigalow (*Acacia harpophylla*) regrowth. 2. Burning as a post-spraying treatment. R. W. Johnson and P. V. Back 189

Combination of cropping and spraying to control brigalow (*Acacia harpophylla*) suckers. R. W. Johnson and P. V. Back 197

Comparison of biosuper with superphosphate as a phosphatic fertilizer for wheat. M. J. Whitehouse and W. M. Strong 205

Waterspreading in south-western Queensland—native pasture production and forage cropping. A. J. Pressland 212

INDEX TO VOLUME 34

PAGE

Acacia harpophylla (brigalow)—
control by aerial spraying 9
control by burning and spraying 179, 189
control by cropping and spraying 197

Allsopp, P. G.—
'Insects associated with *Eremophila gilesii* F. Muell, in southern Queensland' .. 157

Amos, P. J. (with T. H. Kirkpatrick)—
'Mammals and birds of Millmerran Shire, south-east Queensland' 123

Aonidiella aurantii (red scale), control on citrus 75

Austroasca spp. in lucerne 163

B

Back, P. V. (with R. W. Johnson)—
'Combination of cropping and spraying to control brigalow (*Acacia harpophylla*) suckers' 197

Back, P. V. (with R. W. Johnson)—
'Control of brigalow (*Acacia harpophylla*) in cattle country by two aerial spraying applications 10 months apart' 9

Back, P. V. (with R. W. Johnson)—
'Relationship between burning and spraying in the control of brigalow (*Acacia harpophylla*) regrowth. I. Burning as a pre-spraying treatment' 179

Back, P. V. (with R. W. Johnson)—
'Relationship between burning and spraying in the control of brigalow (*Acacia harpophylla*) regrowth. II. Burning as a post-spraying treatment' 189

Bananas, control of rust thrips 175

Biosuper, compared with superphosphate as fertilizer for wheat 205

Brigalow—
control by burning and spraying 179, 189
control by cropping and spraying 197
control by aerial spraying 9

Broadley, R. H.—
'Vertical distributions of tobacco looper (*Plusia argentifera* Guenee) (Lepidoptera: Noctuidae) eggs and larvae on three tobacco varieties in north Queensland' .. 169

C

Cactus, control with hexaflurate 135

Cattle, effect of dipping on growth rate 99

Chrysomphalus ficus (circular black scale), control on citrus 75

Circular black scale (*Chrysomphalus ficus*), control on citrus 75

Citrus—
control of red scale and circular black scale 75
control of white wax scale 151

'Combination of cropping and spraying to control brigalow (*Acacia harpophylla*) suckers' 197

PAGE

' Comparison of biosuper with superphosphate as a phosphatic fertilizer for wheat ' .. 205

Connell, J. A. (with B. Gulbransen and L. Laws)—
' Effect of dipping on the growth rate of grazing cattle ' 99

' Control of *Aonidiella aurantii* (Maskell) and *Chrysomphalus ficus* Ashmead on citrus in south-eastern Queensland ' 75

' Control of brigalow (*Acacia harpophylla*) in cattle country by two aerial spraying applications 10 months apart ' 9

' Control of Jassids (*F. cicadellidae*) on potatoes in southern Queensland ' 141

' Control of the banana rust thrips (*Chaetanaphothrips signipennis* (Bagn.)) in north Queensland ' 175

' Control of white wax scale (*Gascardia destructor* (Newstead)) on citrus in south eastern Queensland ' 151

Crack, B. J. (with A. A. Webb and Jill Y. Gill)—
' Studies on the gilgaied clay soils (Ug 5·2) of the Highworth land system in east-central Queensland. 1. Chemical characteristics ' 53

E

' Effect of dipping on the growth rate of grazing cattle ' 99

' The effect of plant density on leaf area index and yields of *Pisum sativum* ' 35

Eremophila gilesii (green turkey bush), insects associated with 157

F

Ferguson, K. H. (with H. T. Green)—
' Nitrogen mineralization in three soil types used for tobacco production in the Moreton district ' 87

Franzmann, B. A.—
' Control of the banana rust thrips (*Chaetanaphothrips signipennis* (Bagn.)) in north Queensland ' 175

G

Gill, Jill Y. (with A. A. Webb and B. J. Crack)—
' Studies on the gilgaied clay soils (Ug 5·2) of the Highworth land system in east-central Queensland. 1. Chemical characteristics ' 53

Green, H. T. (with K. H. Ferguson)—
' Nitrogen mineralization in three soil types used for tobacco production in the Moreton district ' 87

Green turkey bush, insects associated with 157

Gulbransen, B. (with L. Laws and J. A. Connell)—
' Effect of dipping on the growth rate of grazing cattle ' 99

Gulbransen, B.—
' Nutritive value for sheep of untreated hoop pine sawdust supplemented with urea or biuret ' 103

H

Harvey, G. J.—
' Hexaflurate: a new herbicide for selective control of harrisia cactus 135

' Hexaflurate: a new herbicide for selective control of harrisia cactus ' 135
